XIII. **Five Year Pavement Management Plan**
Mr. Blue provided copies of the Champaign County Pavement Management Plan for FY 2017-2021 prepared by Applied Research Associates. The Pavement Management Plan optimizes the expenditure of construction funds over the long-term by choosing the most appropriate treatment and timing for road improvements. Mr. Blue discussed the Pavement Condition Index for Champaign County roads. The use of Cold-Inplace Recycling is doing very well; applying earlier seal coats leads to asphalt preservation. The projected end of year 2016 overall network PCI value was 75.3, corresponding to a good condition rating. The Maintenance and Rehabilitation Plan for the next five years includes:

- Major Rehabilitation of CH 23 in 2017
- Major Rehabilitation of CH 13 and CH 16 in 2018
- Rehabilitation of portions of CH 9, 15, and 25 in 2019
